Allotments in Nuneaton
Space to grow

Come and join us!

Take advantage of the many benefits of growing your own fruit and vegetables on your allotment.

- You can be out in the fresh air and doing some exercise - a great stress buster and gets you fitter, cheaper than the gym!

- You can choose what, if any, chemicals you grow your food with, and massively reduce the food miles of what you put on your plate.

- Your food will be so much fresher than what you can buy, for the best taste and goodness.

- Some food will be much cheaper to grow yourself and you can try growing different varieties that you can't find easily in the shops.

- You'll have a chance to meet new people and there'll be growing advice if you need it (and sometimes even if you don't!).

Forget the stereotype! Plots and plot holders come in all sorts of different shapes and sizes.

There are allotmenters of all ages, and from all sorts of backgrounds.

There are smaller plots for the novice and those with less time, or larger ones for the more experienced or enthusiastic gardener.

Come and join in!
